### Feedback - Week 1 Quiz

Thank you. Your submission for this quiz was received.

You submitted this quiz on **Sun 12 Apr 2015 8:13 PM IST**. You got a score of **10.00** out of **10.00**.

Which of the following is a principle of analytic graphics?		
Your Answer	Score	Explanation
On't plot more than two variables at at time		
Only do what your tools allow you to do		
Show multivariate data	<b>✓</b> 1.00	
Show box plots (univariate summaries)		
Make judicious use of color in your scatterplots		
Total	1.00 / 1.00	

# Question 2

What is the role of exploratory graphs in data analysis?

Your Answer	Score	Explanation
They are made for formal presentations.		
They are used in place of formal modeling.		
They are typically made very quickly.	<b>✓</b> 1.00	
Axes, legends, and other details are clean and exactly detailed.		
Total	1.00 /	

# **Question 3**

Which of the following is true about the base plotting system?

Your Answer	Score	Explanation
Margins and spacings are adjusted automatically depending on the type of plot and the data		
<ul> <li>Plots are created and annotated with separate functions</li> </ul>	1.00	Functions like 'plot' or 'hist' typically create the plot on the graphics device and functions like 'lines', 'text', or 'points' will annotate or add data to the plot.
The system is most useful for conditioning plots		
Plots are typically created with a single function call		
Total	1.00 / 1.00	

# **Question 4**

Which of the following is an example of a valid graphics device in R?

Your Answer		Score	Explanation
A Microsoft Word document			
A PDF file	~	1.00	
A socket connection			
A file folder			
Total		1.00 / 1.00	

# Question 5 Which of the following is an example of a vector graphics device in R? Your Answer Score Explanation GIF PNG SVG ✓ 1.00 JPEG Total 1.00 / 1.00

Question 6			
itmapped file formats can be most useful for			
Your Answer		Score	Explanation
<ul> <li>Scatterplots with many many points</li> </ul>	<b>~</b>	1.00	
Plots that may need to be resized			
Plots that are not scaled to a specific resolution			
Plots that require animation or interactivity			
Total		1.00 / 1.00	

## **Question 7**

Which of the following functions is typically used to add elements to a plot in the base graphics system?

Your Answer	Score	Explanation	
oplot()			

oboxplot()		
<ul><li>lines()</li></ul>	~	1.00
hist()		
Total		1.00 / 1.00

# **Question 8**

Which function opens the screen graphics device for the Mac?

1.00
1.00 / 1.00

# **Question 9**

What does the 'pch' option to par() control?

Your Answer		Score	Explanation
the size of the plotting symbol in a scatterplot			
the line width in the base graphics system			
• the plotting symbol/character in the base graphics system	~	1.00	
the orientation of the axis labels on the plot			
Total		1.00 / 1.00	

# **Question 10**

If I want to save a plot to a PDF file, which of the following is a correct way of doing that?

Your Answer		Score	Explanation
<ul> <li>Construct the plot on the screen device and then copy it to a PDF file with dev.copy2pdf()</li> </ul>	<b>~</b>	1.00	
Open the PostScript device with postscript(), construct the plot, then close the device with dev.off().			
Construct the plot on the PNG device with png(), then copy it to a PDF with dev.copy2pdf().			
Open the screen device with quartz(), construct the plot, and then close the device with dev.off().			
Total		1.00 /	
		1.00
